Project Design Phase-II
Technology Stack
(Architecture & Stack)

Date	31January 3035
Team ID	
Project Name	
Maximum Marks	4Marks

Technical Architecture:

A technology stack (or "tech stack") is the combination of programming languages, frameworks, databases, servers, and developer tools used to build and run a software application. It represents a layered ecosystem where each component sits on top of another to form a fully functional digital platform.

Stack Name	Base OS	Web Server	Database	Language / Framework
LAMP	Linux	Apache	MySQL	PHP
MEAN	Node.js (Runtime)	Express.js	MongoDB	Angular
MERN	Node.js (Runtime)	Express.js	MongoDB	React
