Project Design Phase
Solution Architecture

Date	15 February 2025
Team ID	
Project Name	
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

A solution architecture (SA) is a structural plan or blueprint that defines how software, hardware, networks, and data flows integrate to solve specific business problems. It acts as a bridge between high-level enterprise strategy and the technical engineering teams responsible for building the system.

Example - Solution Architecture Diagram:
